

Sparks, Nev. (July 29, 2016) – Davidson's Organics is pleased to announce the introduction of a line of specialty tea chocolates. We will be offering decadent organic dark chocolate bars, sprinkled with a healthy dash of our custom tea blends. This infusion of the most authentic Ecuadorian Cacao Arriba with our organic tea blends crafts a dessert so decadent, even the most discerning of palates will be delighted.

The tea chocolate flavors will include;

- **Classic Chai:** The masala of ingredients in our Classic Chai tea blend enhances the richness of the cacao with a lingering spicy finish.
- **Coconut Vanilla:** The rich essence of roasted coconut, combined with the rich cacao, creates a lavish dessert with tropical top notes.
- **Earl Grey with Lavender:** The citrusy undertones that Earl Grey lovers appreciate compliment the rich cacao, while the added lavender petals work to craft a soothing and flowery finish.

Davidson's organic tea chocolates are expected to be available in Fall 2016.
