**For Immediate Press Release 07/15/2014:**

SPARKS, NV: Davidson's Organic Teas has been recently awarded NSF certification for Good Manufacturing Practice. The company passed the food safety audit from one of the most well-respected independent certification organizations in existence this past June. Davidson's, which was the first tea company to go fully-organic fifteen years ago, continues to set the standard in the tea industry by producing healthy teas under the strictest food processing and safety regulations.

NSF International is an independent organization that tests, audits and certifies products and systems with the goal of protecting and improving global human health. Accredited by the Occupational Safety and Health Administration and the National Organic Program among many others, NSF develops public health standards that regulators look to. NSF certification ensures that all products manufactured at Davidson's facility were produced with the upmost care and quality as in compliance with NSF's requirements.

Davidson's Organic Teas is certified USDA Organic and free of pesticides, dairy, GMOs, and other non-permitted ingredients. Direct from family-owned gardens in India, through the Fair Trade-certified line to Nevada, Davidson's offers a wide variety of blends and traditional flavors in tea bags, loose leaf form, and iced tea. Davidson's is proud to share the benefit of drinking organic teas from its own tea gardens exclusively with the United States.
